A Visit to CMU's Entertainment Technology Center

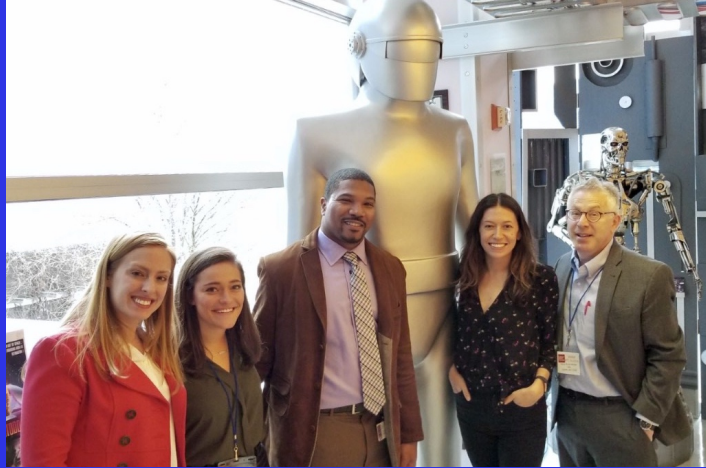

Last week the Center visited CMU's Entertainment Technology Center in Pittsburgh's South Side. ETC Teaching Professor Dr. Mike Christel toured us around the innovative space and outlined potential educational and collaborative opportunities.

We also had the opportunity to meet with student teams working on

health-related projects. We explored Thin Line's virtual reality to learn about biases in reproductive counseling and were introduced to the game Home Front to practice end-of-life discussions.

Find more projects here or contact Dr. Christel if you are interested in attending the ETC's End-of-Semester 3-7 pm Open House on Friday, May 4!
